

ANDREW M. KUZMICH, P.E.

Project Engineer

With Redniss & Mead Since 2012

Professional Engineer
CT License # 0031389

Andrew is an out-of-the-box thinking civil engineer who consistently comes up with creative solutions to technical problems. He has inclusive experience as project manager, design team coordinator and technical designer. He is involved in all phases of development from concept through approvals to completion of construction. He coordinates project teams including architects, traffic engineers, utilities, municipal land-use officials and environmental agencies at the local, state and federal levels. Beyond his technical know-how, Andrew mentors our junior engineers and trains new staff in CAD and other related technical material.
